MEMO FOR THE RECORD

24 February 1981

STAT

FROM:

PPG

STAT

SUBJECT:

On this date the DD/P&M advised he had been contacted by the D/ODP regarding his memorandum of 2 Feb 81. The D/ODP was anxious to publish subject and asked if publication could be effected without the change recommended in the cited memo. The DD/P&M responded that the D/ODP could consider the suggestion withdrawn if he did not call back after checking into the matter.

The writer contacted the C/ISSG and was advised that an ISSG member and the Chief, "anagement Staff, ODP were negotiating on the suggestion and that resolution was expected in a couple of days. This information was passed to the DD/P&M who decided the issue was not worth delay of publication. Instead, he proposed that ISSG reach an agreement to effect the desired coordination without including an additional paragraph in the regulation. The ~~XXXX~~ C/ISSG was advised of this decision/approach and agreed his concern would be addressed as an agreement that would ensure coordination with the ODP Security Officer as a phase of disposal action. Negotiation was going in this direction and he had no problem of implementing procedures not specifically documented in a regulation.
